

Combining Capabilities with Assured Digital Technologies

Assured Digital Technologies combines the strengths and value to customers of two highly respected IT businesses, **MDS Technologies** and **Bristol IT Company**. The merger of the two businesses generates an even greater proposition for organisations through the compelling and significant complimentary portfolio of services and competencies derived from working with Government, Public Sector and Private Sector/Commercial organisations.

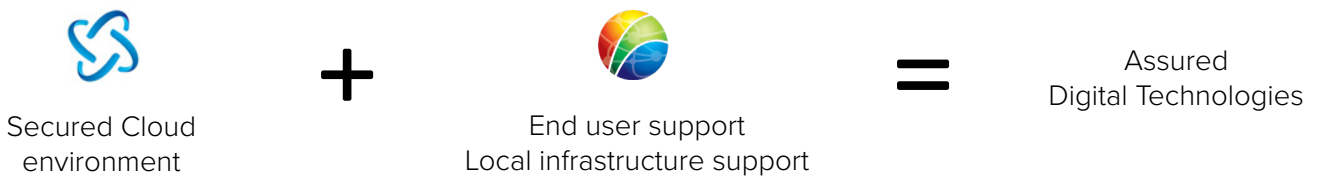

Our enhanced offering

Assured Digital Technologies offers an enhanced suite of managed IT solutions which can be tailored into a bespoke package to suit your unique business requirements and deliver maximum value from one supplier. Below are examples of business scenarios that would benefit from Assured Digital Technologies' combined capabilities.

Scenario 1

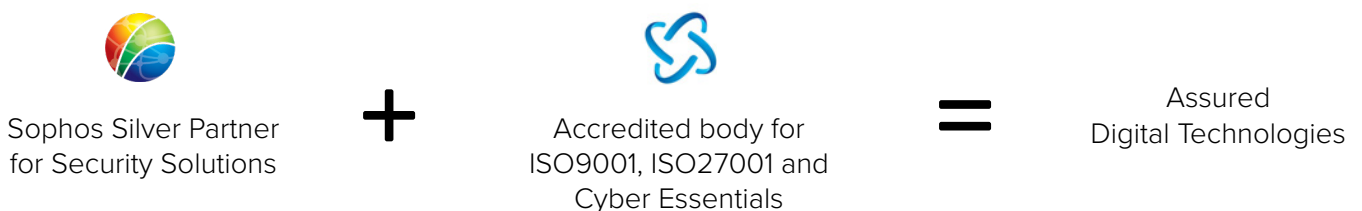

Requirement: A secure assured hosted environment with full support included in one package from one supplier.

Scenario 2

Requirement: To win more Public Sector business by becoming accredited ISO and Cyber Essentials certifications.
